

CO-CURRICULAR ACTIVITIES CALENDAR 2026-27

'EACH CHILD MATTERS' - THE JOURNEY CONTINUES...

IMPORTANCE OF ACTIVITIES

Activities are a window to a child's adjustment of self and self with others. Activities are important for several reasons. They can enhance a students' academic development and performance. They can also help students to develop important life skills in areas of leadership, organization, confidence and socialization and most importantly to discover themselves and their interests. Therefore, in keeping with the initiatives of the NEP-2020 and the Central Board of Secondary Education, the YMCA Centenary School & College will ensure that every student is given the opportunity to participate in the School's co-curricular activities in one form or the other.
